**Restricted Licensure**

I am a Licensed Clinical Mental Health Counselor Associate in the state of North Carolina. This license asserts that the licensee has completed the required Master's Degree in counseling under supervision in North Carolina as a therapist and is working under professional supervision. I will discuss your case with my supervisor. I will ask you for permission to record a session or allow my supervisor to sit in on a session. Should you need to contact my supervisor, you may reach Heather Hale, LCMHCS, RPT at 919-234-7192 or [heather@heatherhaletherapy.com](mailto:heather@heatherhaletherapy.com)

**Professional Experience and Services**

My experience with children has been working in an in-patient facility with children ages 5 to 14 as part of a comprehensive treatment team. This work was with a variety of diagnoses including anxiety disorders, attachment disorders, depressive disorders, bipolar and borderline disorders. This population often had extensive trauma histories. I also have experience leading therapy groups for children ages five to fourteen focusing on emotional regulation, feelings identification and social skills. My counseling theory is trauma informed utilizing child-centered play therapy approaches. I am trained in TF-CBT and have experience working with children with developmental delays. I also have experience working with children ages 3- 12 in a multicultural setting utilizing child centered play therapy techniques.

I have a Certificate in Trauma Studies from Regent University. I am EMDR 1 and 2 trained and have received additional trainings in the areas of play therapy and trauma counseling. I have been counseling since 2018 part time as part of my degree.

**CONFIDENTIALITY**

The confidentiality of your personal health information is very important to me. At LifeCare we have a team approach and confidential information may be shared with other providers on our team as necessary to ensure the best quality of care. Your personal information is confidential within the practice. I may use and disclose your personal information without authorization for the following purposes: abuse, neglect, domestic violence, or court order. As required or permitted by law, I may disclose health information about you to a state or federal agency to report suspected abuse to self or others, neglect, domestic violence, or court order. If such a report is optional, I will use my professional judgment in deciding if to make such a report. If feasible, I will inform you promptly that I have made such a disclosure.

Minors and Disabled Adults

When working with clients who are minors or adults who are legally incapable of giving consent, I will obtain consent from a parent or legally authorized representative. For children who are clients, it will be determined the extent that he or she has an understanding of privacy based on chronological age and cognitive ability. If the child has no concept of privacy, then I am free to share information with parents without informing the child first.

Pre-adolescents and adolescents will be seen on an "informed forced consent" in that information will be handled as confidential, but it is up to the therapist to decide what information is pertinent to share with the parents. Sometimes it is in the best interest of the minor client not to disclose all information to the parents that the child shares with the therapist so as to strengthen the therapeutic alliance and work through issues with the minor. Parents of the minor will be given updates of progress of goals and treatment plans on a scheduled basis. When it is determined that information should be shared for therapeutic reasons or as part of family counseling, the client will be informed and consulted and/or included in sharing the information to the parents or guardians. This of course, is superseded by any of the exceptions of confidentiality (danger to self or others, abuse, or court order) as stated in the above paragraph.

When working with two or more persons who have a relationship such as in a group, family or marriage, I will clarify at the outset who is the primary client as an individual or family unit. I will not share confidences by one family or group member to others outside the family without permission or prior agreement of all members except described in legal exceptions of threat of serious harm to self or others as described above in paragraph one.
